EDUCATION

The University of Alabama, Tuscaloosa, AL, USA Expected December 2030
Doctor of Philosophy in Computer Science
Focus Area:, Usable Security and Privacy, Human-Centered Computing, AI Security, Adversarial ML, Advisor: Dr. Tu Le

University of Ghana, Legon, Ghana *August 2024*
Master of Science in Computer Science
Honors: Overall Best ML with Big Data Analytics Student

Ghana Communication Technology University, Accra, Ghana *July 2022*
Bachelor of Science in Computer Engineering
Honors: First Class Honours, Innovative Thesis Award, Second Best Engineering Graduate

RELEVANT EXPERIENCE

Graduate Research and Teaching Assistant *August 2025 – Present*
UA-Spectral Lab, The University of Alabama, Tuscaloosa, AL

- Designed BotLens, a privacy auditing framework analyzing 183,142 reviews across 23,000 Discord bots.
- Trained DeBERTa-v3-large on a 33-concept security and privacy taxonomy, reaching F1 of 0.94 with 30% labeling.
- Built end-to-end Python pipeline integrating Playwright scraping, Ollama llama3:8b distillation, and RTX 5090 inference.
- Co-authored adversarial transferability study across 7 attacks, CNN and ViT models, and 3,500 configurations.
- Led CS 438/538 Computer Networks labs under Prof. Yang Xiao (IEEE Fellow): TCP/IP, DNS, HTTP, Wireshark.

Large Language Model (LLM) Researcher *January 2024 – May 2024*
Datamaker GH, Accra, Ghana

- Annotated and curated large-scale text datasets for LLM training and evaluation under structured NLP labeling protocols.
- Performed data cleaning, validation, and quality checks across multilingual corpora to reduce noise and labeling errors.

Teaching Assistant and Data Analyst *January 2022 – September 2023*
Department of Computer Engineering, GCTU, Accra, Ghana

- Supported instruction for ENCE 324 Computer Security and Disaster Recovery and ENCE 312 Software Engineering.
- Tuned production academic database queries and indexes, reducing system downtime by 25%.
- Built Excel analytical dashboards using PivotTables, VLOOKUP, and advanced charts to track student performance metrics.

ADDITIONAL EXPERIENCE

Programming Instructor and Frontend Developer *June 2018 – September 2020*
Codetrain, Accra Digital Center, Accra, Ghana

- Taught beginner software development, Scrum, and Agile methodology, increasing student project completion capacity by 79%.
- Built responsive web apps with HTML, CSS, SASS, JavaScript, and Bootstrap; mentored 40+ early-career developers.

HONORS & ACTIVITIES

Honors: Upsilon Pi Epsilon (UPE) Computer Science Honor Society, Innovative Thesis Award (GCTU), Newmont Gold Corp Scholarship, Government of Ghana Scholarship; Volunteer for UA CS K-12 Robotics Contest organized by Prof. Jeff Gray
Certifications: 16+ verified badges (IBM Data Science, Google IT Support, Google PM, IBM Machine Learning) [view here]

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, LaTeX, HTML/CSS, MATLAB
ML/AI & Security: PyTorch, TensorFlow, Scikit-learn, Hugging Face, Pandas, OpenCV, DeBERTa/Transformers, CNN/ViT, Adversarial ML, Threat Modeling
LLMs, Agents & Tools: LangChain, LangGraph, AutoGen, MCP, Claude API, Ollama, RAG, Playwright, Git, Docker
